

Coffee in Asia Pacific

March 2023

Table of Contents

INTRODUCTION

Scope

Key findings

REGIONAL OVERVIEW

Asia Pacific has the lowest per capita coffee expenditure and is becoming more mature Supply chain disruptions and shift back towards on-trade soften off-trade growth in 2022 Polarised factors driving coffee consumption in Asia Pacific: Experience vs convenience Convenience still influence instant coffee growth for smaller markets, albeit maturing Instant coffee faces challenges from rising health awareness and regulation in Southeast Asia Fresh coffee sees much higher absolute growth, driven by Japan and South Korea Lifestyle trends are paving the way for premiumisation and sustainability efforts in the region Geodemographic factors – eg rural vs urban population: Determine channel distribution E-commerce enables increasing sophistication in coffee consumption in Asia Pacific

LEADING COMPANIES AND BRANDS

Coffee remains relatively consolidated, with the leading brands dominating sales

Most leading companies are losing market share to smaller companies, except for Unilever

Leading companies rely on either diverse market coverage or domestic stronghold

Brands in more dynamic categories and less matured markets are gaining higher position

FORECAST PROJECTIONS

Low single-digit off-trade value sales growth predicted in most markets

Consumption is challenged by competition and supply chain issues despite income growth

Both hard and soft drivers support the highest-in-region growth for Taiwan and India

About Euromonitor International

Euromonitor International is an independent market intelligence provider. Data, insight and analysis stem from in-the-field research spanning 210 national markets.

Content ranges from the in-depth and country-specific, to key strategic themes with a global range and significance. Products cover a comprehensive range of insights and market data, but can be broadly categorised as:

- Strategy Briefings: Global or regional in scope, and focussing on the most important themes shaping consumer demand, the key markets, competitive environment and future outlook across a range of industries.
- Company Profiles: Analysis dedicated to the world's most significant companies, with detailed insight into their activities, focus of operations, their competitors, their geographic presence and performance.
- Country Reports: For an in-depth understanding of specific countries, whether by industry, economic metrics or consumer
 trends and lifestyles. These reports cover current trends, consumer demand, market potential and future prospects, with
 country-specific local insight and comprehensive data, unavailable elsewhere.
