

No/Low Alcoholic Drinks: Evolution, Drivers and Future

October 2021

Table of Contents

INTRODUCTION

Scope

Key findings

LOW ABV: INTOXICATING PERFORMANCE

Low ABV, high expectations

Flavour versus functionality

New occasions: new channels

Culture, lifestyle and drinking rituals determine no/lo focus

Performance beers? Rec League by Harpoon Brewery

Hop flavoured water with a twist; WTR by Constellation Brands

Natural high? spirited Euphoria by the Endorphin Dealer Institute

No/low and cannabinoids: the holy grail?

MODERATING MODERATION?

COVID-19 merely accelerated pre-existing mindful drinking habits

Premiumisation peaks?

Avoiding intoxicatingly irrational exuberance; no/low in context

Hard seltzers' moderating performance: a cautionary tale?

The new roaring 20s? the rise of "revenge convivialité "

About Euromonitor International

Euromonitor International is an independent market intelligence provider. Data, insight and analysis stem from in-the-field research spanning 210 national markets.

Content ranges from the in-depth and country-specific, to key strategic themes with a global range and significance. Products cover a comprehensive range of insights and market data, but can be broadly categorised as:

- **Strategy Briefings:** Global or regional in scope, and focussing on the most important themes shaping consumer demand, the key markets, competitive environment and future outlook across a range of industries.
- **Company Profiles:** Analysis dedicated to the world's most significant companies, with detailed insight into their activities, focus of operations, their competitors, their geographic presence and performance.
- **Country Reports:** For an in-depth understanding of specific countries, whether by industry, economic metrics or consumer trends and lifestyles. These reports cover current trends, consumer demand, market potential and future prospects, with country-specific local insight and comprehensive data, unavailable elsewhere.
