Households: France

HEADLINES

PROSPECTS

Childless families will become more prevalent among French households While urbanisation is already at a high rate in France, the largest cities continue growing, although the rate of growth will slow Subdued economic growth to cloud household disposable income potential over the forecast period French households have high internet connectivity and relatively well-developed digital skills Rising interest rates increase mortgage costs, boosting housing expenditure and hampering household disposable income

About Euromonitor International

Euromonitor International is an independent market intelligence provider. Data, insight and analysis stem from in-the-field research spanning 210 national markets.

Content ranges from the in-depth and country-specific, to key strategic themes with a global range and significance. Products cover a comprehensive range of insights and market data, but can be broadly categorised as:

- Strategy Briefings: Global or regional in scope, and focussing on the most important themes shaping consumer demand, the key markets, competitive environment and future outlook across a range of industries.
- Company Profiles: Analysis dedicated to the world's most significant companies, with detailed insight into their activities, focus of operations, their competitors, their geographic presence and performance.
- Country Reports: For an in-depth understanding of specific countries, whether by industry, economic metrics or consumer trends and lifestyles. These reports cover current trends, consumer demand, market potential and future prospects, with country-specific local insight and comprehensive data, unavailable elsewhere.
