

Economy, Finance and Trade: Saudi Arabia

March 2023

Table of Contents

HEADLINES

PROSPECTS

Economic growth to slow down in the short term as oil demand is set to decrease

Inflation to remain low, with additional government funds to support households

Improved access to trade finance facilities for SMEs improves exports potential

Efforts to improve investment environment expected to boost FDI inflows

Soaring oil revenues allow the government to invest in economic diversification

About Euromonitor International

Euromonitor International is an independent market intelligence provider. Data, insight and analysis stem from in-the-field research spanning 210 national markets.

Content ranges from the in-depth and country-specific, to key strategic themes with a global range and significance. Products cover a comprehensive range of insights and market data, but can be broadly categorised as:

- **Strategy Briefings:** Global or regional in scope, and focussing on the most important themes shaping consumer demand, the key markets, competitive environment and future outlook across a range of industries.
- **Company Profiles:** Analysis dedicated to the world's most significant companies, with detailed insight into their activities, focus of operations, their competitors, their geographic presence and performance.
- **Country Reports:** For an in-depth understanding of specific countries, whether by industry, economic metrics or consumer trends and lifestyles. These reports cover current trends, consumer demand, market potential and future prospects, with country-specific local insight and comprehensive data, unavailable elsewhere.
