

Global Overview of the Energy Industry

May 2022

Table of Contents

INTRODUCTION

Scope

Examining four trends shaping the energy industry

Key trends impacting the industry in 2022

GLOBAL OVERVIEW

Energy industry recovers after the pandemic shocks

Production value to fully recover in 2022

China and the US continue to dominate global industry

P rofit margins recover in light of rising demand and growing fossil fuel prices

Exports on steep recovery with rising global demand for energy

China and India to continue leading global energy imports growth

Asia Pacific to remain the largest energy market in the World

Rising fossil fuel prices are driving energy industry revenue growth

GLOBAL OVERVIEW

Energy prices set for decline in second half of 2022

LEADING COMPANIES

Chinese energy companies lead the global market

Total number of companies on the rise with recovering demand

Industry concentration to increase with tightening environmental regulations

GLOBAL OUTLOOK

China, the US and Brazil to drive future production value growth

Most major producers will have reached pre-pandemic production revenues by 2022-2023

Key future trends shaping the global industry

COUNTRY SNAPSHOTS

China: Industry reaches pre-pandemic turnover revenues in 2021

Lockdowns in 2022 to negatively affect energy market development

USA: Energy industry set for robust turnover increase

Large domestic market demand to continue supporting industry revenues

Russia: Strict trade sanctions to severely hit industry revenues in 2022

Invasion of Ukraine to reshape Russia's export future

Iran: Industry vulnerable to global political landscape

Hope for future lifting of sanctions increases investment in production output

Saudi Arabia: Resilient to COVID-19 shocks

Saudi Arabia continues to invest in Asian market refining to secure future crude oil buyers

Canada: Industry to continue on steep recovery path over the outlook period

New pipeline projects to secure future export growth

India: Industry set for consistent growth

Demand for refined petroleum to be supported by swift growth in road transport

Brazil: Industry remains resilient to COVID-19 shock

Brazil to amp up exploration and production

Australia: Industry slow to recover

Uncertain coal future and shrinking refining dampens Australian energy industry prospects

South Korea: Industry remains resilient to COVID-19 shock

Despite high prices, South Korea increases crude oil purchases to meet export demand

Definitions

Euromonitor International is an independent market intelligence provider. Data, insight and analysis stem from in-the-field research spanning 210 national markets.

Content ranges from the in-depth and country-specific, to key strategic themes with a global range and significance. Products cover a comprehensive range of insights and market data, but can be broadly categorised as:

- **Strategy Briefings:** Global or regional in scope, and focussing on the most important themes shaping consumer demand, the key markets, competitive environment and future outlook across a range of industries.
- **Company Profiles:** Analysis dedicated to the world's most significant companies, with detailed insight into their activities, focus of operations, their competitors, their geographic presence and performance.
- **Country Reports:** For an in-depth understanding of specific countries, whether by industry, economic metrics or consumer trends and lifestyles. These reports cover current trends, consumer demand, market potential and future prospects, with country-specific local insight and comprehensive data, unavailable elsewhere.
