

Global Overview of the Pharmaceuticals and Medical Equipment Industry

November 2023

Table of Contents

INTRODUCTION

Scope

Key findings

GLOBAL OVERVIEW

The industry's real-term growth is set to slow amid healthcare sector pressures and rising costs

China and the US are set to lead globally, while India is on track for the most rapid expansion

Higher wages and rising material and energy costs are inflating production expenses

Higher costs squeeze profit margins, but total profits grow in 2022 due to rising revenues

Western Europe maintains its position as the leading pharmaceutical exporter

Western Europe tops global imports, while Latin America showcases the quickest growth

Key trends

Macroeconomic/industry trends

LEADING COMPANIES

Shanghai Pharmaceuticals dominates, but American firms hold the majority of top positions

Rising number of companies is mostly attributed to sector growth in developing countries

Despite ongoing consolidation, industry concentration is expected to remain low
