

Supply Chain Optimisation

April 2023

Table of Contents

INTRODUCTION

Scope

Key takeaways

Exploring supply chain optimisation

Drivers of supply chain optimisation

Supply chain optimisation uncovered

DIGITAL TRANSFORMATION

Industries invest in digital transformation to better shield from supply chain risks

Digital tools can help companies to increase sales

Case study: BASF implements digital manufacturing to streamline fungicide production

Digital transformation can help companies to accelerate growth and reduce costs

SUPPLY CHAIN RESILIENCE

Supply chain problems encourage companies to build resilience

Manufacturers aim to localise production to reduce supply chain risks

Case Study: Apple diversifies production network to shield from supply chain risks

Companies aim to improve supply chain resilience to shield from the rising risks

SUSTAINABLE MANUFACTURING

Changes in consumer preferences and legislation drive sustainability initiatives

Manufacturing sector prioritises investments into new sourcing strategies and efficiency

Case Study: CLAAS manages to reduce energy consumption while increasing production

Sustainable manufacturing to become mainstay in the industry

REGULATORY DYNAMICS

Changes in regulations have the biggest impact on the manufacturing segment

Changes in regulations can have effects across the broader economy

Case Study: A Glass of launches sustainable packaging for new categories

Tracking regulatory changes can help to identify potential supply chain changes

CONCLUSION

Key takeaways

Supply Chain Optimisation: How to win

Evolution of supply chain optimisation

Questions we are asking

About Euromonitor International

Euromonitor International is an independent market intelligence provider. Data, insight and analysis stem from in-the-field research spanning 210 national markets.

Content ranges from the in-depth and country-specific, to key strategic themes with a global range and significance. Products cover a comprehensive range of insights and market data, but can be broadly categorised as:

- **Strategy Briefings:** Global or regional in scope, and focussing on the most important themes shaping consumer demand, the key markets, competitive environment and future outlook across a range of industries.
- **Company Profiles:** Analysis dedicated to the world's most significant companies, with detailed insight into their activities, focus of operations, their competitors, their geographic presence and performance.
- **Country Reports:** For an in-depth understanding of specific countries, whether by industry, economic metrics or consumer trends and lifestyles. These reports cover current trends, consumer demand, market potential and future prospects, with country-specific local insight and comprehensive data, unavailable elsewhere.

For more information on this report, further enquiries can be directed via this link www.euromonitor.com/supply-chain-optimisation/report.
