Global Economic Forecasts: Q4 2026

November 2026

Table of Contents

KEY FINDINGS

Key findings
Strait of Hormuz disruption ripples across demand, food and energy costs
Our expert’s view of global economy in Q4 2026

INTRODUCTION

Top five trends in the global economy
Key events shaping economic growth over February-October 2026
Key drivers and constraints of GDP growth

GLOBAL OUTLOOK

Energy, trade and AI shape a resilient but uneven outlook
Energy and tariffs keep inflation elevated, delaying monetary easing
Energy costs to stay high into 2027 as policy buffers thin
A fragile recovery hinges on a lasting Middle East deal
Trade adapts through diversification and new trading blocs
Escalating trade tensions could cut growth and lift prices
AI investment props up growth and technology exports
High public debt leaves little room to absorb the next shock

ADVANCED ECONOMIES OUTLOOK

US: AI investment sustains growth amid inflation and fiscal strain
US: Growth leans on affluent households and a narrow AI investment surge
US: Structural resilience tested by three key vulnerabilities
Eurozone: Economy proves more resilient despite energy shock
Eurozone: Energy costs squeeze spending as public projects drive investment
Eurozone: Total energy dependence amplifies all downside scenarios
UK: Resilient growth meets renewed price pressures
UK: Households save more as firms keep investing
UK: Balancing between domestic and international challenges
Japan: Economy slows as energy shocks and trade pressures test resilience
Japan: Consumer spending and investment outlook
Japan: Severely impacted under rapid and prolonged Gulf crisis

EMERGING AND DEVELOPING ECONOMIES OUTLOOK

China remains resilient, but domestic growth constrains recovery momentum
China: Caution keeps China’s spending recovery selective
China’s outlook hinges on risks in energy and trade disruption
India: Balancing domestic strengths against external threats
India: State-led investment drives growth as consumers turn cautious
India: Oil dependence leaves growth exposed to external shocks
ASEAN growth holds firm, despite tariffs and energy pressures
ASEAN: Vietnam and Indonesia lift spending as AI drives investment
ASEAN faces divergent risks from China growth, trade war and energy disruption
Brazil: Commodity exports cushion a slowdown driven by weaker domestic demand
Brazil: High borrowing costs sap spending and make investment selective
Brazil: Fiscal weakness and exposure to commodity exports drive downside risks
Mexico: Nearshoring momentum stalls as tariff uncertainty weighs
Mexico: Consumer spending and investment outlook
Mexico: USMCA review and mixed energy exposure create binary outcomes

About Euromonitor International

Euromonitor International is an independent market intelligence provider. Data, insight and analysis stem from in-the-field research spanning 210 national markets.

Content ranges from the in-depth and country-specific, to key strategic themes with a global range and significance. Products cover a comprehensive range of insights and market data, but can be broadly categorised as:

- Strategy Briefings: Global or regional in scope, and focussing on the most important themes shaping consumer demand, the key markets, competitive environment and future outlook across a range of industries.
- Company Profiles: Analysis dedicated to the world's most significant companies, with detailed insight into their activities, focus of operations, their competitors, their geographic presence and performance.
- Country Reports: For an in-depth understanding of specific countries, whether by industry, economic metrics or consumer trends and lifestyles. These reports cover current trends, consumer demand, market potential and future prospects, with country-specific local insight and comprehensive data, unavailable elsewhere.
