

Digital Traceability: A Future of Transparency in Food Sourcing

September 2020

Table of Contents

INTRODUCTION

Scope

Key findings

TRANSPARENCY FRONTLINED

Digital transformation in the COVID-19 era

Digital traceability solutions can build trust among younger consumers

Digital traceability more suited to regions where digital consumers exist

Learning from South Korea's e-commerce landscape

THE NEW AGE OF DIGITAL TRACEABILITY

Key applications of digital traceability initiatives

Three technologies are emerging to support digital traceability

Opportunity for blockchain-based traceability solutions still wide open

Passporting food as COVID-19-free through blockchain

Lower cost of RFID tags sees rapid adoption in food tracing

Meat processors increasingly turning to AI amidst contamination scares

FUTURE OUTLOOK

Future business investment expected to target IoT and AI

COVID-19 accelerates demand for digital traceability solutions

About Euromonitor International

Euromonitor International is an independent market intelligence provider. Data, insight and analysis stem from in-the-field research spanning 210 national markets.

Content ranges from the in-depth and country-specific, to key strategic themes with a global range and significance. Products cover a comprehensive range of insights and market data, but can be broadly categorised as:

- **Strategy Briefings:** Global or regional in scope, and focussing on the most important themes shaping consumer demand, the key markets, competitive environment and future outlook across a range of industries.
- **Company Profiles:** Analysis dedicated to the world's most significant companies, with detailed insight into their activities, focus of operations, their competitors, their geographic presence and performance.
- **Country Reports:** For an in-depth understanding of specific countries, whether by industry, economic metrics or consumer trends and lifestyles. These reports cover current trends, consumer demand, market potential and future prospects, with country-specific local insight and comprehensive data, unavailable elsewhere.
