Global Overview of the Hi-Tech Goods Industry

November 2022

Table of Contents
INTRODUCTION
Scope
Examining four trends shaping the motor vehicles and parts industry
Key trends impacting the industry in 2022

GLOBAL OVERVIEW
Strong global electronics demand helps hi-tech goods see limited effects from COVID-19
Production value set to stabilise over the medium term
China continues dominating the global industry
Profits rise, thanks to strong rebound after the pandemic
Exports rebound after turbulence over COVID-19 outbreak
Recovering production set to strengthen global imports values
The fastest growth hi-tech goods markets to be driven by expanding local production
Rising prices harm hi-tech goods supply chains
Inflationary pressures to remain high over the short term

LEADING COMPANIES
Electronic component producers climb to the top
Number of companies stabilises due to increasing competition in China and India
Industry concentration remains stable

GLOBAL OUTLOOK
China will continue to dominate production value growth
Key producing countries have reached pre-pandemic turnover
Key future trends shaping the global industry

COUNTRY SNAPSHOTS
China: New investment in semiconductors reshapes the industry
China’s shift to semiconductor business offers new growth possibilities
US: Industry reorganisation needed as a catalyst for growth
US hi-tech companies embrace the transition to new business segments
South Korea: Component production focus to steer the industry out of recession
Component production to drive industry’s rebound
Japan: On the path to reinventing the industry
New segments become the core focus area for Japanese tech giants
Taiwan: Surging global demand for chips helps to keep growth stable
Innovative segments to provide boost for revenue, but lack of diversification is a concern
Germany: Industry rebounds together with recovering B2B demand
New opportunities await German hi-tech goods companies
Singapore: Investment to drive turnover expansion
Economic issues in key exports markets expected to hinder growth
India: Continuing government efforts to boost hi-tech production
Government efforts are set to remain essential for the industry’s development
Philippines: On the verge of transformation
The industry seeks stabilisation post-pandemic, but changing legal system deters investors
Malaysia: In high demand for investment in future growth
New investment in high value-added production needed

About Euromonitor International
Euromonitor International is an independent market intelligence provider. Data, insight and analysis stem from in-the-field research
spanning 210 national markets.

Content ranges from the in-depth and country-specific, to key strategic themes with a global range and significance. Products cover a comprehensive range of insights and market data, but can be broadly categorised as:

- **Strategy Briefings**: Global or regional in scope, and focussing on the most important themes shaping consumer demand, the key markets, competitive environment and future outlook across a range of industries.
- **Company Profiles**: Analysis dedicated to the world’s most significant companies, with detailed insight into their activities, focus of operations, their competitors, their geographic presence and performance.
- **Country Reports**: For an in-depth understanding of specific countries, whether by industry, economic metrics or consumer trends and lifestyles. These reports cover current trends, consumer demand, market potential and future prospects, with country-specific local insight and comprehensive data, unavailable elsewhere.
