

The Future of Last Mile Delivery

June 2019

Table of Contents

INTRODUCTION

Scope

Key findings

TRENDS AND CHALLENGES

Why the last mile?

Understanding commercial mobility

Global consensus on climate change dictates need for green policies

Vehicle restrictions create access hurdles for logistics firms

The growth of urban e-commerce and urbanisation

Cost and convenience: customers are picky when it comes to deliveries

IDENTIFYING NEW MOBILITY FORMS

The last mile: start-ups feeding the market with new innovative solutions

Crowdsourced delivery: the Uberification of deliveries

Cycling boom embraced by business

Electric vehicles gaining traction among companies in logistics

Electric vehicles to support night deliveries in cities

Urban consolidation centres: lessons learnt from unsuccessful ventures

Autonomous delivery vehicles: the future of delivery

Other methods used to improve commercial mobility

CASE STUDIES

London Boroughs Consolidation Centre (LBCC)

DB Schenker pilots electric powered bicycle deliveries in Norway's cities

New York pilots out-of-hours delivery

Scania unveiling hybrid and electrical urban trucks

FedEx to add 1,000 electric vans to its delivery fleet

Google Wing: drone deliveries started in Canberra

CONCLUSION

Identifying mobility types for different cities

Some options will take time to develop large-scale commercial use

Policymakers should make implementation of green strategies gradual

Last mile delivery needs sustainable and efficient solutions

About Euromonitor International

Euromonitor International is an independent market intelligence provider. Data, insight and analysis stem from in-the-field research spanning 210 national markets.

Content ranges from the in-depth and country-specific, to key strategic themes with a global range and significance. Products cover a comprehensive range of insights and market data, but can be broadly categorised as:

- **Strategy Briefings:** Global or regional in scope, and focussing on the most important themes shaping consumer demand, the key markets, competitive environment and future outlook across a range of industries.
- **Company Profiles:** Analysis dedicated to the world's most significant companies, with detailed insight into their activities, focus of operations, their competitors, their geographic presence and performance.
- **Country Reports:** For an in-depth understanding of specific countries, whether by industry, economic metrics or consumer trends and lifestyles. These reports cover current trends, consumer demand, market potential and future prospects, with country-specific local insight and comprehensive data, unavailable elsewhere.

For more information on this report, further enquiries can be directed via this link www.euromonitor.com/the-future-of-last-mile-delivery/report.
